The courses assigned to a specific semester will be created on the Moodle platform by automatic exporting of the courses of StudiLöwe. The following new features are implemented after the export:

- Listing of the courses by associated semester (course section)
- The responsible institution of the course in StudiLöwe initially generates the assigning of courses to institutions and schools in the course section.
- Instructions for StudiLöwe "change responsible organisational unit: https://slfaq.uni-wuppertal.de/de/faq-mitarbeitende/lehrveranstaltungen/ (in German available only)

- Lecturers can be permanently unenrolled from a moodle course

Moodle manuals: https://moodle.uni-wuppertal.de/course/view.php?id=22846 (in German available only)

It is considered to enable an automatic transfer of student bookings from StudiLöwe to Moodle, but it is not yet possible.
